

# **MaxterCorp Social Terminal**

User Manual

## Thank you for choosing MaxterCorp!

When you first start the application, you will be greeted with three options.

- *[1]Login*
- *[2]Register*
- *[3]Exit*

First you need to register to start fully using the application. It will instruct you to consult this manual regarding formatting. Formatting limitations include the following:

- Only use letters and numbers at all times
- Maximum length:
  - Login Name – 20 characters
  - Password – 20 characters
  - Name – 50 characters, must consist of First- and Surname
  - Sex – 7 characters
  - Birth date – 12 characters, preferable format YYYY.MM.DD.
  - Address
    - Country, city and street – 50 character each
    - House number – 5 characters
  - Phone number – 13 characters
  - School – 50 characters
  - Work – 50 characters

After registration you can immediately login to your profile. You will be able to change any information about yourself if you made any mistakes!

From here on your first step should be either looking for contacts with the *[2]Search for contacts*, or if you want to see all the registered users choose *[3]Add contacts*.

With *[1]Check* your contacts you can, as it implies, check your own contacts.

With *[5]Messages* you can read the messages other users sent you, and send your own messages to the users you wish to!

When you are finished simply logout with option *[6]Logout*, then use the *[3]Exit* option to close the application!

We at MaxterCorp hope you will find joy in using our Social Terminal!
